Impact Stories

"I thought I knew a bit about the Bible. That is, until I took this course. Now I realize that there's so much I don't know, and that I'm not even aware of how much I don't know! I learned so much about the Bible through this course. Thank you so much!"

-Aaron

"Through this course, I have been overwhelmed with what I really believe about my Christian faith. This class has really opened my eyes to understanding the Image of God on a whole new level that I never knew existed. I always knew there was more to being a Christian than what I have been taught. I was never just a pew warmer and I've read and studied the Bible for quite some time now. But it seemed so inadequate, like I was missing something. With this course, I think I finally found it!"
